Who are Anthesis?

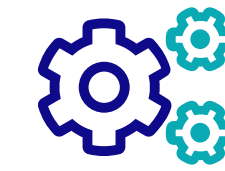

Established in 2009, we are a UK based company specialising in ERP software and services.

As an IFS Gold Channel Partner, we sell and implement ERP software to a global customer base, as well as providing over 12,000 days of technical and functional consultancy each year and 24/7 Support and Managed Services designed to help reduce your total cost of ownership.

Our Services.

Our global network of more than 150 consultants are readily available and are equipped to provide services both on site and remotely. We can work with you from initial implementation roll out through to upgrades, projects, as well as ongoing optimisation and 24/7 support using our Managed Services team.

Anthesis Customers.

Our customers are at the heart of everything we do. Our success is helping our customers grow and achieve their business objectives.

We tell our story through our customers' success stories.

Why choose Anthesis?

We know exactly what to do:

Anthesis consultants have an average of 15 years' experience.

We've done it many times before:

We have completed more than 275 projects in 25 different countries.

We will tell it like it is:

Whether consulting, software sales or service delivery, we will speak honestly and directly.

We are always the right size:

We are not too big to care and not too small to have an impact.

We are in it for the long term:

We are growing our team and investing in people.

Anthesis Managed Services.

Is your team tied up with IFS support issues?

Anthesis Managed Services has both on-shore and off-shore support resources to help you manage your application, freeing up your team to focus on the right priorities.

Our support team of 35 IFS certified associates are an extension of your IT department, allowing you to focus on the essential improvement projects that will drive your business success and leave the day-to-day system and user issues to us.

Projects and Consultancy.

Are you looking for a consultant to join your next IFS project?

Anthesis provide strategic IFS Applications consultancy with a global network of highly-skilled technical and functional experts.

We can work with you from initial implementation roll out through to upgrades and ad hoc projects, allowing you to take better control of your ERP software and processes. Our consultancy services can help you realise the full potential and value of your ERP solutions.

Customer Success Story.

“

Anthesis delivered the first entirely cloud-based partner-led implementation of IFS Applications 10 in the UK for design-led Electronic Manufacturing Services provider Chemigraphic. Discover why Chemigraphic chose Anthesis to implement IFS Applications 10 from scratch to ensure their ambitious growth plan.

Anthesis

Customer Success Story.

“

I have consistently received excellent support from the Anthesis team, they have gone above and beyond my expectations. Should I ever feel stuck on any issue within our IFS system, I feel comfortable and confident that I can speak to Anthesis and their response time is excellent. They have supported me to further my development of the system itself. They are a fantastic team!”
