With Infor M3 CloudSuite technology

Our solution is built on powerful Infor M3 CloudSuite technology, offering high reliability, secure connectivity and architecture designed to support spikes in demand. The platform gives you end-to-end capabilities – fully integrated because that's the way software should be, delivered in the cloud to give you ultimate security and flexibility, and infused with deep industry-specific functionality so you can say goodbye to costly and limiting customisations.

Unleash the value of an ERP built with you in mind.

We built an in-depth feature set tailor-made to address the specific operational needs of the pet food industry. Anthesis for Pet Food is the only ERP software solution configured for UK pet food manufacturers, developed to be fully functional out-of-the-box, without the need for complex customisations.

Get instant access through the cloud.

Latest cloud-based software can be accessed on any device, anywhere and automatically applies the latest updates so you don't have to disrupt your operation to upgrade your solution. Efficiently reach multiple integrated applications from one user-friendly web-based interface with ease via single sign-on.

We are here with you.

Anthesis are with you from end-to-end. We will rapidly implement your solution as well as provide ongoing optimisation and proactive service desk management with our Managed Services team. As Infor's largest UK channel partner, we help release the value of your enterprise software solution.

An ERP with the right ingredients.

Don't get stuck with a system filled with features you don't need.

Quality Control

Ensure your quality is maintained to the highest level with a quality control module integrated to purchasing, manufacturing, and sales.

Document Management

Always have the right document with Infor Document Management, integrate all your business documents with your core business processes inside your ERP system.

Mobile App

Speed up your approval process with automated alerts to notify the right people who can quickly approve actions whether on site or on the move via the mobile app. Improve warehouse efficiencies and stock accuracy through scanning and simple actions by using the app on any warehouse or factory mobile device.

Workflows

Eliminate repetitive admin tasks and reduce paper waste with flexible workflows.

Lot Traceability

Get fast, intuitive and comprehensive lot traceability to help you quickly isolate and recall all finished goods and raw materials in any part of the supply chain.

Demand Planning

Manage your customer forecast in a demand planning application that is fully integrated to the core ERP system such that changes in customer demand can immediately be actioned by the business.

Production Planning

Plan your production schedule efficiently with a production scheduling application that factors in machine, resource, and material availability to fine tune your manufacturing plan.

Reports and Analytics

Get full picture visibility with powerful business intelligence analytics. Use pre-built reports and dashboards or build your own. Aggregate your business intelligence analytic data from other sources using Birst Enterprise.

Who is Anthesis?

Established in 2009, we are a UK based company specialising in ERP software and services and Infor's largest UK partner. We sell and implement ERP software, as well as providing technical and functional consultancy and ongoing Managed Services designed to help reduce your total cost of ownership. We help businesses release the value of their Enterprise Applications.

We know exactly what to do

Anthesis consultants have an average of 15 years' experience

We've done it many times before

We have completed more than 275 projects in 25 different countries

We tell it like it is

Whether consulting, software sales or service delivery, we will speak honestly and directly

We are always the right size

We are not too big to care and not too small to have an impact

We are in it for the long term

We are growing our team and investing in people

about Infor >>

Who is Infor?

Growing with your business – software
that builds successful companies.

Infor is a global enterprise company that provides software products for every aspect of a business. Infor builds complete industry suites in the cloud and efficiently deploys technology that puts the user experience first, leverages data science and integrates easily into existing systems.

Over 68,000 organisations worldwide rely on Infor to help overcome market disruptions and achieve business-wide digital transformation.

A golden retriever and a grey and white cat are shown eating from a white bowl. The dog is on the left, lying down, and the cat is on the right, standing and eating. The background is a soft, out-of-focus indoor setting.
